(43) Sopralene Flam 180 GR

This building is in a high wind zone, it had a 5 year old EPDM Roof with 56 reported leaks. The roof was replaced with Soprema's Soprafix System.

Using the Soprafix System Hamilton Roofing was able to complete this 125,000 Sq Ft project in 26 days.

Please call your local Soprema Sales Representative for more information on our Soprafix system.
